

# West Earlham Infant and Nursery School

## **"Learn Well. Live Well."**

"We see children as individual and emphasise the importance of high quality childhood experiences. Learning is a serious business and doing well at school gives children a great start to their educational career. We expect staff to make the school interesting and fun for our learners. We expect children to do their best and be their best. We have high expectation for each and every child. Families are encouraged to support us in all we do so we can work in partnership for children" (B. Neate-Evans. Headteacher)
