**Gathering outside the school gates**

Dear Families,

Firstly a big thank you to everyone for helping us to ensure that drop off and collection times within school are as safe as possible. Some families however, have raised concerns about the gathering of adults and children on the pavements outside both the infant and junior school.

To ensure that families and children can arrive at school safely and without big crowds congregating please

- Stick to the **set time** given for your child's year group (bubble) unless you have more than one child in our school (come at the later time)
- If you have to wait after dropping off a junior school aged child, please do this **across the road and away from the main entrance**
- Do not come to school with **additional adults** that have to wait outside the school gates and add to a crowd
- **Respect** our neighbours who may need to leave their own homes during these times
- Please **do not smoke or vape** around the entrance to school

As always thank you for your ongoing support with this.

Kind regards

Mrs Mardell  
Head teacher
