Positive case in Conkers am nursery class

Dear Family,

We have been advised this morning that there has been a confirmed case of COVID-19 within **Conkers am class**. This only affects the children and staff in the am class, who were present on Wednesday 16th June and/or Thursday 17th June. Staff and children affected have already been notified. It does mean that those close contacts will now need to self isolate for 10 days and therefore Conkers will not be open until **Monday 28th June 21**.

It is clear that the delta variant is very much circulating now in our community and I urge everyone to continue to follow the measures we have put in place when dropping off and collecting your child from school/nursery and to not enter the school, if you are self isolating or have symptoms.

Symptoms of COVID 19

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or
- high temperature and/or
- a loss of, or change in, normal sense of taste or smell (anosmia)

However, we understand that the **delta variant** may also have other symptoms such as a **headache, sore throat and runny nose**, so please be vigilant and get a PCR (not a LFT) if you are worried.

If your child develops symptoms or has a positive test at the weekend, please email covid@weins.co.uk

Yours sincerely

Mrs S Mardell
Headteacher
