## Art and Design Curriculum

## Intent

At West Earlham Infant and Nursery School we endeavour to use art and design to stimulate children's natural creativity and imagination. Through the teaching of art and design we aim to inspire children to communicate and express their own ideas, thoughts and feelings and those of others. By learning key skills and techniques, children will be able to experiment, invent and create their own works of art. Art provides a way for children to understand and respond to the surrounding world. Exciting and stimulating experiences will promote children's understanding, interest, appreciation and enjoyment of all aspects of art and design. Art experience can also help to develop important life skills such as resilience, having a go and working out how to overcome adversity.

Art and Design at West Earlham Infant Nursery School will:

- Develop and stimulate children's creativity, ideas and imagination.
- Develop children's artistic skills, vocabulary, knowledge and understanding.
- Enable children to approach art with confidence and enjoyment.
- Support children to explore and use materials and processes in a variety of ways to communicate their ideas and feelings.
- Expose children to a wide range of artistic activities and processes, techniques, tools and materials.
- Teach children about a range of artists, craft makers and designers.
- Support children to evaluate and respect their own work and the work of others.
- Enable children to ask and answer questions about works of art.
- Develop children's ability to work cooperatively.
- Develop children's skills, attitudes and attributes that can support learning in other areas.

## Implementation

- The teaching and implementation of the art and design curriculum at West Earlham Infant and Nursery School follows the National Curriculum and in KS1 this is supported by using Suffolk County Council's, *Art and Design in Suffolk* scheme.
- In KS1 teachers plan and teach art by using the *Art and Design in Suffolk* scheme.
- In KS1 learning is further enhanced by working with the Sainsburys Centre for Visual Arts, a local museum and art gallery.
- In the EYFS we follow the Early Years Foundation Stage Statutory Framework.
- In the EYFS teachers set up an enabling environment where children explore their creativity both inside and outside with access to multiple media and materials. Our 'in the moment' planning approach in the EYFS enables teachers to demonstrate and teach skills and techniques associated with the things that children are doing and are interested in doing. This also includes developing children's gross and fine motor skills to ensure they can use appropriate tools and techniques.

| Our children will experience: | Nursery | Reception | Year 1 | Year 2 |
